## Memorandum

To: Marc Nelson, Environmental Scientist, Albuquerque, New Mexico

From: Dennis Umshler, Geologist, Albuquerque, New Mexico

Subject: Review of Anaconda's updated mining and reclamation plan for the Jackpile-Paguate uranium mine complex

As you noted in your request for a review of the subject plan, the revised mining and reclamation plan is nearly identical to the original plan which I reviewed in a memorandum to the Assistant Area Mining Supervisor, Carlsbad, New Mexico, dated March 3, 1977.

I have no additional comments on the updated plan.
